CONTENTS VOLUME 77 AUGUST 1985

page 1 PLATTNER, H., PAPE, R., HAACKE, B., OLBRICHT, K., WESTPHAL, C. and KERSKEN, H. Synchronous exocytosis in *Paramecium* cells. VI. Ultrastructural analysis of membrane resealing and retrieval

19 BONNER, J. T., JOYNER, B. D., MOORE, A. A., SUTHERS, H. B. and SWANSON, J. A. Successive asexual life cycles of starved amoebae in the cellular slime mould, *Dictyostelium mucoroides* var. *stoloniferum*

27 PAYNE, C. M., LINDE, A., KIBLER, R., POULOS, B., GLASSER, L. and FIEDERLEIN, R. Surface features of human natural killer cells and antibody-dependent cytotoxic cells

47 KIM, Y. V., KUDZINA, L. YU., ZINCHENKO, V. P. and EVTODIENKO, Y. V. Changes in the transport of mitochondrial Ca^{2+} during the culture growth cycle of *Tetrahymena pyriformis*

57 OSAWA, S. and HALL, P. F. Plasma membranes from adrenal cells: purification and properties

75 ZAPOROWSKA-SIWIAK, E., MICHALIK, M., KAJSTURA, J. and KOROHODA, W. Density-dependent survival of Ehrlich ascites tumour cells in the presence of various substrates for energy metabolism

87 RAHAT, M. Competition between *Chlorellae* in chimeric infections of *Hydra viridis*: the evolution of a stable symbiosis

93 TAKEMOTO, K., YAMAMOTO, A. and TAKEUCHI, I. The origin of prespore vacuoles in *Dictyostelium discoideum* cells as analysed by electron-microscopic immunocytochemistry and radioautography

109 VAUX, D. J. and GORDON, S. Intracellular antigens associated with the cytoplasmic surface of phagolysosomes

129 HIEDEMANN, S. R., HAMBORG, M. A., BALASZ, J. E. and LINDLEY, S. Microtubules in immature oocytes of *Xenopus laevis*

143 HARRISON, C. J., JACK, E. M., ALLEN, T. D. and HARRIS, R. Light and scanning electron microscopy of the same human metaphase chromosomes

155 TIEDTKE, A. Isolation of pure pellicles containing intact basal bodies of *Tetrahymena pyriformis*

167 BENNETT, D. C., BRIDGES, K. and MCKAY, I. A. Clonal separation of mature melanocytes from premelanocytes in a diploid human cell strain: spontaneous and induced pigmentation of premelanocytes

185 NAKAOKA, Y. and OOI, H. Regulation of ciliary reversal in Triton-extracted *Paramecium* by calcium and cyclic adenosine monophosphate

197 LONERGAN, T. A. Regulation of cell shape in *Euglena gracilis*. IV. Localization of actin, myosin and calmodulin

209 STOKER, M. and PERRYMAN, M. An epithelial scatter factor released by embryo fibroblasts

225 MCAULEY, P. J. The cell cycle of symbiotic *Chlorella*. I. The relationship between host feeding and algal cell growth and division

241 MCAULEY, P. J. The cell cycle of symbiotic *Chlorella*. II. The effect of continuous darkness

255 ROBAGLIA, A. and SEÏTE, R. Changes in nucleoli and nucleolar fibrillar centres of chromaffin cells in rat adrenal medulla over a 24-hour period: an ultrastructural and stereological analysis

263 WARNER, F. D., PERREAULT, J. G. and MCILVAIN, J. H. Rebinding of *Tetrahymena* 13 S and 21 S dynein ATPases to extracted doublet microtubules: the inner row and outer row dynein arms

289 ALTMANN, C. G. A gradual decrease in nucleolar size with the maturation of columnar epithelial cells in the adult rat intestine under normal and various experimental conditions
